

Twelve Great Reasons to be an AFE Member

AFE Facilities Engineering Journal

Simply the best technical journal in the field. The journal provides practical, in-depth information on current key industry issues.

Professional Development and Education

AFE offers the most comprehensive education available on facilities engineering and management at its three national conferences.

Networking and Contacts

Take advantage of many opportunities to meet peers at local programs conducted by AFE's 136 active chapters and at over 20 AFE-sponsored regional conferences/trade shows.

Professional Recognition

Earn recognition for your professional expertise through AFE's Certified Plant Engineer (CPE), Certified Facilities Environmental Professional (CFEP) and Certified Facilities Maintenance Manager (CFMM) programs.

AFE Member Resource Directory

Quickly locate colleagues throughout the country in various industries in this unique and useful member directory. Free to all members.

Reference Publications

Order reprints of AFE Facilities Engineering Journal articles from the Technical Resources Guide. Gain access to the field's highest regarded books and reference publications through AFE's revered Facilities Management Library.

Money Savings

Enjoy exceptional discounts on publications, conferences, educational programs, insurance coverage, car rentals and certification programs just by being an AFE member.

CareerNet

Find a job in facilities engineering through the CareerNet job listings published in AFE Newsline, the member newsletter and the AFE homepage on the World Wide Web.

Trade Shows

See the best in equipment and services at over 20 regional trade shows/conferences sponsored by AFE throughout the country.

Facilities Tours

See how your colleagues maintain productive facilities through tours conducted by AFE's chapters.

Group Insurance

Save money with AFE's low-cost group insurance coverage, including life, disability income, accident and excess major medical.

Valuable Research

Obtain useful data from AFE-sponsored projects such as the Annual Salary Survey and the "Definition of a Plant/Facilities Engineer" white paper.
