Granite State Chapter 140 Association for Facilities Engineering

The Most Powerful Name in Facilities
Engineering
www.afe140.org

**WANT TO SEE A BUILDING THAT COULD HOLD 24
FOOTBALL FIELDS?**

OF COURSE YOU DO!!!

MARCH TOUR

Walmart Distribution Center
42 Freetown Rd
Raymond, NH
Wednesday, March 28

Must register by Friday, March 23

So it's almost baseball season and we all know how baseball fans love stats. So try these on...

The distribution center campus covers 226 acres and includes 250 miles of two lane highway. They used 400,000 cubic yards of concrete to build it. The building is 1,300,000 square feet and can enclose 24 football fields, 9 major league baseball fields, or 800 tennis courts.

Why would you do this? So you can move 250 – 300 trailer trucks in and out every day (That's one truck every five minutes!) through 174 loading docks.

So why haven't you already signed up for this? Register now!

DIRECTIONS to Walmart Distribution:

1. Route 101 to exit 5 in Raymond
2. Take 107 South off 101.
3. The distribution center is on the left immediately after 101.

DINNER DIRECTIONS:

Dinner will be served at Pasquale's Restaurant
145 Raymond Rd
Candia

1. Get on 101 West
2. Take exit 3 towards Deerfield
3. Take a right off the ramp and bear left at the BP station
4. Bear right at the next fork and continue about 2 miles
5. Pasquale's is on the right in the Birchwood Plaza next to the Granite State Credit Union

DINNER SELECTIONS:

Choose between

LASAGNA
HADDOCK FRADIIVOLO WITH ANGEL HAIR PASTA
CHICKEN MARSALA WITH GREEN BEANS BABY CARROTS AND POTATOES
VEAL CUTLET PARMIGIANA WITH SPAGHETTI PASTA

Indicate your choice on your registration.

GUEST SPEAKER

What is invisible and costs you money? Thermal energy loss!!!

This month's presentation by Rob Maglio of J.S. Barry Industries, GreenCell Insulation Division will address solutions to mechanical energy loss from a thermal insulation perspective. You will be shown some examples of various situations where insulation can help you save money, protect personnel, and control condensation, as well as site references and calculators that will help you do the math for upcoming renovations or new projects. This promises to be an educational look into a solution that's often put on the back burner.

MEETING REGISTRATION

The cost of the meeting and dinner is \$30.00 for members and guests

You MUST register through Survey Monkey. Email registrations will no longer be accepted. You can email me if the link does not work, but please don't email me to register.

Please get this right. We are now providing name tags with your name and company, so this information is important. If your name tag is hand written, everyone will know you screwed this up! And every month there are still hand written name tags.

- 1. State your name, the company or facility you work for, and your meal choice for yourself and any guests. If only attending the tour, state your name and then state "tour only". Answer all the appropriate question when you go to the link below.**

Easy, right?

Go to <http://www.surveymonkey.com/s/XNLR57B>, answer the questions in the boxes provided, and then submit the survey. When I open it, it will give me a list of who is coming (including guests) and what the meal choices are. Nametags will be made based on the information provided here.

A NOTE ABOUT REGISTERING

When you register to attend the tour and meeting, we reserve a meal for you. We provide those numbers to the restaurant on Monday so they can purchase and prepare our meals for the meeting. Once we specify the number of meals, we are obligated to pay for them. **The Board wants all members to be reminded that we will have to charge members that register to attend but don't show.** If circumstances change and you can't make it, you must let us know by noon on Monday. Any notice after that may still result in a charge.

We are still getting no shows, which forces us to send you a bill even if you didn't attend. And we are still getting attendees that didn't register. That leaves us short on food.

AFE140.COM or AFE140.ORG

Click on this address. Check it out. We think we have a great site that you can use to introduce others to our chapter and encourage them to join. We will also be adding content to make it a resource for you. Check out "additional links".

**Remember, the advertisers and
venders support us,**

now let's support them.
